Disclaimer

Santri Coin is a community-driven decentralized cryptocurrency that exists independent of governments and central authority.

We use open-source smart contracts that are permanently protected. In legal terms, it regarded a utility token and is not a regulated or security token in any way. Furthermore, it is not backed by a stablecoin or fiat money. Trading cryptocurrencies is fraught with danger, thus we respectfully request that you carefully review all administrative, regulatory, and legal criteria before reading this WhitePaper and/or interacting with \$SANTRI. By proceeding, the User acknowledges and accepts the possibility of losing some or all of his or her initial investment and, as a result, waives any claim against any team member of the SANTRI Coin community.

Introduction

The company PT Halo Santri Nusantara, also known as Halo Santri, is a startup that was founded in 2022. A CEO (Chief Executive Officer) and a President Commissioner lead the company. Halo Santri is Indonesia's top startup company in the technological element of Islamic Boarding Schools. This company offers learning services to learn the Qur'an in a modern way, notably through the use of technology that can be accessible conveniently and from any location. Halo Santri's learning services can be accessible online via an application. We do not limit teachers or consumers because we operate on a worldwide scale. Users can use the Halo santri service via the app.

Although the service is offered online, Halo Santri's instructional materials adhere to the criteria of a Pesantren whose Ustadz/Ustadzah have been confirmed. Halo Santri's headquarters are in Bangkalan, Madura, East Java. Furthermore, Halo Santri's other offices are spread around Indonesia. Hello, Santri. We will also grow the company to include Ustadz and Ustadzah, as well as international students.

Halo Santri was founded by
Kyai Imam Bukhori (Management of PBNU 2022) and **Abdul Wahid, S.Hi**

Vision and Mission

Halo Santri's aim is to provide quality Qur'anic learning services at cheap prices, to maximize quality and provide jobs for educators (Ustadz) wherever they are, and to make religious education technology easier for students, educators (Ustadz), and parents in their activities.

Halo Santri's objective is also to make it easier for people to obtain quality Qur'an education by leveraging technology in an easy, effective, and efficient manner.

Use Case

The Halo Santri application uses the Santri Coin crypto to make it easier as a means of payment globally, so students who are abroad who want to subscribe to the Halo Santri application can use the payment using the santri coin token, which will be converted into rupiah and then can be used as Payment.
